

HOUSE OF *Ming*

The story of The House of Ming revolves around the Ming nobility who travelled the globe to introduce the culture and cuisine of their dynasty to the known world. Apart from the cuisine, the Ming nobility brought botanicals, such as Ginkgo leaves, a sacred concept of yin and yang symbolising longevity and vitality, to the people they met. With the ever expanding trade route that was a large part of the Ming dynasty's reign, the Ming nobles were able to chart out new areas. Allowing them to spread the intricacies of their culture and dynasty even further.

The House of Ming in London continues that journey by bringing the rich culture, history, and most importantly, cuisine from across China, while imbibing the hospitality and values of its storied counterpart in India.
